D. Comments

Damascus has put out a fair amount of publications in the past year. An interesting and useful publication which has been acquired is a new military dictionary which RPO believes will be the official one in the UAR since it has been blessed by Marshall Amir. This dictionary is the official Canadian military dictionary. It has been published in French-Arabic by the Military Press of the Northern Region of the UAR, and an English-Arabic edition is promised for next year.

Communist periodicals began to appear here only about two months ago and the following are available in certain bookstores and newstands:

Soviet Union, in Arabic, French, and English;  
Soviet Film, in Arabic, French, and English;  
Soviet Woman, in English;  
Modern Woman, in French;  
Labor and Opinion, in French;  
Modern Times, in French;  
Soviet Literature, in French and English;  
Culture and Life, in French and English.

The RPO was able to obtain some old numbers of Bulgarian and Rumanian magazines in Arabic. All periodicals available in Arabic were purchased.

### D. Comments

Very few books have been published here, and these were purchased. Mr. Mallah was not aware of having ever received the forty odd publications sent to his library by LC. Upon questioning his two aides, he was informed that these books did arrive but a list which LC promised to send later never had and, therefore, a letter of acknowledgement was withheld pending receipt of this list. He immediately requested that a letter of thanks be sent to LC. He also told RPO that he would be only too glad to buy publications for LC if the latter will so authorize him, providing that he will be responsible for material published in Aleppo only.

Communist periodicals in Arabic are available here. There are also some recent anti-Communist books on the stands and in bookstores, samples of which were purchased.

A listing of the Syrian press is attached (Attachment A).

Very little has been produced in the past two months, or since RPO's last visit to this city. Meanwhile, a few Communist publications in Arabic, such as Soviet Union, China Illustrated, Soviet Film, and the magazine, Al-Waqt, have been purchased and forwarded.

LC's arrangement through the Embassy is running smoothly, I was told.
